VETERANS FIND ROLLINS LIFE THE SAME (ALMOST)!!!

M. J. DAVIS '35

Unless looks belie, those twenty-two veterans of World War II pictured on the front cover are mighty happy to be back at Rollins, and who wouldn't be? They represent only those vets who were enrolled at Rollins before the war, however. The campus actually boasts a total of 122 ex-servicemen, approximately 22% of them married and carefully guarded by their wives. No count of the Alma Mater's grandchildren has been made.

They find campus life pretty much the same . . . despite a 28% increase in enrollment over pre-war days (511 students, to be exact) and with the "conference plan" fighting for existence in overcrowded classrooms. Academic progress (grades to you) show a somewhat higher average, proving that the veterans are more than holding their own against the Florida moon, the Pelican, and the co-eds, all still as tempting as ever.

Of course the married veterans do note a few changes, especially in their extra-curricular activities. It's a few turns around the kitchen floor with "junior" instead of around the dance floor with a beautiful co-ed, and a goodly number are boiling the baby's bottles at home. But they love it!

Besides the "Cover Boys" pictured in this issue, the following Rollins veterans are expected back for the Spring term: Ed Acree, Ernest Bryson, Earle Cole, Nat Felder, Dwight Foster, Carleton Gillespie, Clayton Grimstad, William Koch, Ed Langley, Ray Middlemas, Tom Royal, Stanley Schultz, Earl Tyler, Milford Talton, Peter Winant and Dixon Yard; for the Fall term: Hartland Bennett, Arthur Bernd, Gene Chizik, Robert Hanna, Gordon Evans, Cyrus Liberman, Fred Mandt, Tom MacCaughelty, Mary Malta Peters, Stephen Rosoff, Lamar Simmons, Alyce Stuckie, Hank Swan, Louis Stone, Benjamin Tuthill and Trammell Whittle.

NEW ADMINISTRATION BUILDING

Most welcome sight to behold on campus is the new administration building now in progress of erection in the sand lot in front of Carnegie Hall. It will line up with the front door of Carnegie and face the Annie Russell Theatre. This is the first unit of the Victory Expansion program. Upon its completion Carnegie Hall will be used entirely by the Library until such time as a new library building is forthcoming.

Ground was broken at a ceremony held on February 8, when Mrs. George E. Warren, gracious donor of Knowles Memorial Chapel and to a large extent the Rollins Center and Alumni House, as well as the new building, turned the first shovel of earth with the well-known golden spade.

THANKS . . .

Thanks from the Alumni Association go to Mr. H. E. VanSurdam, special assistant to President Holt in the Victory Expansion Program, for signing over to the empty coffers of our treasury, his share of royalties from the sale of "Hellions of The Sky," music of which is used with the new Rollins song, "Neath the Rollins Gold and Blue" written by Muriel Fox '48. How about requesting your radio station to broadcast it, or your favorite orchestra to play it. Let's be millionaires!

Thanks go to loyal class secretaries, who find time in their busy lives to track down news of their hard-to-locate classmates, and a verbal spanking to those who "forget!"

Rollins Service plates are again being manufactured by Wedgewood and delivery may be expected early in '47. Orders are now being accepted at the Alumni Office.

RELIGION AT ROLLINS

DEAN HENRY M. EDMONDS, *Dean of Knowles Memorial Chapel*

(Excerpts from a Radio Broadcast over WLOF)

As the Chapel building dominates the campus architecturally, so its symbolism dominates student life spiritually whether they know it or not. The Chapel operates every day through committees and activities that touch every phase of life from the College to the uttermost parts of the earth.

The Chapel is one of the noblest buildings of its kind in America. It is a memorial to her father by Mrs. George E. Warren and is one of the products of the genius of the late Ralph Adams Cram. The building is enriched by a great organ, by great windows, and by a great wealth of sacred art in paintings and in tapestries.

But the physical properties of the Chapel are only the beginning. Dr. Charles A. Campbell, first Dean, devised a service of singular beauty and effectiveness. On numberless occasions men and women of the widest experience in such matters have said to me that it is the most deeply moving expression of religious devotion that they have ever known. I, myself, never sit through it without a thrill.

First, there are the uniformly dressed and badged student ushers, well trained, courteous, reverent. Next, the student choir, composed in large part of voice majors, built up over a long period of years by one director, a really significant choral organization.

The four reading parts of the services are taken by students, many of them majoring in speech, though they are trained specifically for each Sunday's program. It is beyond belief how effective these students are. Some of them are memorable, never to be forgotten. We had a boy reading one Sunday who was totally blind. He stood with his face uplifted, hand moving across his Braille Bible, voice ringing out, like some modern kind of prophet. He was reading a part of Isaiah 45, and when he paused after the words, "I will give to thee the treasures of the darkness", our hearts forgot to beat. I remember another day when a hopeless cripple almost sang the words of the scriptures: "He healeth all their diseases".

The building with its appointments and the form of service, I have no doubt, lift up and impress these student participants forever, just as the students make the building and the service come alive Sunday after Sunday with the reality of their worship. It is no wonder that they want to be married in the Chapel, and that alumni bring their babies from the farthest places to be baptized there.

Nor ought one to forget the courses at Rollins in Bible and Religion, where young people face the problems of religious faith and practice week after week under the guidance and in the companionship of a brave, true Christian leader whom they respect and love. But for that matter, the same can be said for every member of the Faculty, for being Christian, the whole method and substance of their teaching is Christian, no matter what their subject.

FOUNDERS' WEEK HIGH SPOTS

Two of the honorary degree recipients, Greer Garson and Brig. Gen'l Carlos Romulo.

The Kappa Alpha boys crowning Greer Garson "The Kappa Alpha Rose" immediately following the Convocation in the Chapel garden and the Libra girls initiating her into honorary membership. The Delta Chi's embracing Romulo into the fold.

In Prexy's own words: "We have just passed through the most inspiring Founders' Week of my twenty-one years as president of Rollins. There seemed to be a sort of electric enthusiasm shown for the College and its future at virtually every function held."

Opening shot: Marc Gilmore, president of the senior class, winning the Reeve Oratorical contest.

Premier performance "You Can't Take It With You," starring Fred Stone '29 Hon., with supporting student cast, performance running six nights to full house.

George Fuller '39 putting the Alumni Luncheon program over the top as toastmaster. Prof. Wattles bringing down the house with his poem, "Pull Leather."

Pausing in the Chapel to honor the memory of those alumni who have passed away during the year at the Alumni Memorial Vespers.

The choir in glorious action at Sunday morning service, Dr. Leslie T. Pennington, of the First Unitarian Church of Chicago, speaking.

Vol. XIX of the Animated Magazine, featuring Brig. Gen'l Carlos P. Romulo, author of "I Am A Filipino"; "Bright Intervals" by Edwin Mims, visiting professor of English at Rollins; La Masa Coral, twenty-five voices of the Polytechnic Institute of Puerto Rico; Greer Garson; Fred Stone; Bob Feller and others.

Convocation and Romulo again (a powerful speaker!), Dean Stone reading honorary degree citations with great finesse for Gen'l Romulo, Greer Garson, Col. Corrin Strong of Washington, D. C., Rev. Pennington and Dean Melville Johnson of Orlando . . . Sullivan Medallion being presented to Dr. Louis Orr of Orlando.

A MESSAGE FROM PRESIDENT HOLT

Each year at Commencement, as many alumni know, I give a little parting talk to our Rollins seniors just before they sing their final Alma Mater and march out of the Chapel, never to assemble again as a whole class. Each year I have tried to say something different but at that precious moment there is only one thing that surges to the mind: to tell them to cherish their college friendships throughout their lives, for all else changes with the unfolding years, students, faculty, campus and ivied halls. As the old Greek, Heraclitus, said, "Panta rei," — all things flow.

I know of no better way to foster "friendship's ties" than through the alumni clubs. Your Association is about to embark upon a program aimed at building up a strong organization of alumni clubs throughout the country as instruments through which the alumni may be kept informed of all the activities of their college and share not only in its happy past but in its even more promising future. I urge each one of you to participate whenever you can.

MARCH, 1946

The Rollins Alumni Record, March, 1946. Published Quarterly by Rollins College in March, June, September and December. Office of publication: Alumni House, Winter Park, Florida. Entered as second-class matter June 28, 1938, at the post office at Winter Park, Florida, under the Act of August 24, 1912.

FOR AULD LANG SYNE

M. J. DAVIS '35

Coming back to the Rollins campus after ten years is like meeting up with an old sweetheart after many years; you can still recognize traces of the old gal that you once knew and loved, but, gosh! how some of the old familiar places have blossomed and grown!! The moss-laden oaks still ring the horseshoe and Lake Virginia still sparkles in the afternoon sun and FLEET PEEPLES is still pretending to give instructions to amateur canoe-addicts but there seem to be six dozen or more new buildings which are already beginning to show the effects of the magnolia-scented night air of Winter Park. Devotees of College Point and the Dinky Station should recall that aroma!!

One thing that never seems to change, however, is the faculty which may be good or bad, depending on which prof flunked you! It will probably be "REILLY" (Weinberg) JONES, who's still bouncing around, spry and mean as ever. He's still sore because Greer Garson chose to accept Prexy's invitation to be his houseguest during Founders' Week, instead of Reilly's. Smart gal, Greer. Up in the Dean's offices, CYNTHIA EASTWOOD is still holding back the crowds which stream in to annoy DEAN STONE, who, incidentally, is beginning to look very austere now that his hairline has crept back another two inches. DEAN ENYART claims he doesn't need a secretary; nobody ever comes to his office except when dragged there by brute force!

Down at the Art Studio, HUGH McKEAN was trying to explain the intricacies of modern art but the class seemed far more interested in the blonde who was posing for the sculpting class next door. ROBERT BURNS, of G.I. art fame, will be rejoining the faculty this spring. RUDY FISCHER, formerly with the Swiss Legation in Washington and a campus visitor in March, will return to the Dept. next Fall after a brief visit with his mother in Switzerland . . . he hopes.

PROF. WATTLES was one of the top stars at the Alumni Luncheon with his poem "Pull Leather" especially written for the occasion. With CHRIS HONAAS enjoying a sabbatical in New York, it looked as if the faculty procession would be a pretty drab affair until DR. MELCHER showed up with a green chapeaux that would have had John-Fredericks turning the same shade.

It's probably the prospect of a football squad next Fall which makes COACH JACK McDOWALL look ten years younger and fitter'n a fiddle! . . The GEORGE CARTWRIGHTS, Jr. and Sr., are still busy glueing and patching Cloverleaf together and praying that some generous alumnus will endow a new dorm before they run out of string and adhesive tape.

Current campus bull-session fare is, of course, the snide article in the Satevepost on tennis at Rollins but general consensus is that it will probably do more good than harm. DR. STARR broke into the "Letters to the Editor" colyum with his humorous riposte on the subject. Mrs. Grace Banzhaf, well-loved campus housemother, is abed at the Florida Sanitarium in Orlando and will be unable to return to Lucy Cross this year. Treasurer E. T. BROWN is also a patient at the sanitarium, suffering from financial strains.

PULL LEATHER

BY WILLARD WATTLES

When Western cowboy, riding range,
Broke in young wall-eyed broncos strange,
When tightly girthed was shiny saddle
And with one run he leaped a-straddle,
Sometimes his comrades round about
Encouraged him with whoop and shout
As 'neath his pants they saw the weather,
"Pull leather, pull leather".

When Hanna, Bacheller, O'Neal, and Green
Were early on the Rollins' scene,
And Rollins forty years of age
Had reached the Life-Begins-At stage,
When Beach and Mowbray both were loathe
To prophecy on Rollins' growth,
A voice was heard one fateful dawn,
"Grab Holt and hang on."

So down from where the nutmegs grow
On alder bushes row on row,
Came Hamilton, the editor,
To see what all the shooting's for;
He soon found out, for even now
When tennis players raise a row,
Relying on his brain and brawn,
We grab Holt and hang on.

No hurricane with levelling blast,
No showers of Rice in Rollins' past,
No storm clouds now when finance thrives,
No drive of drives to end all drives,
No reefs ahead, no wrecks behind,
Can stay the progress of the mind —
He ain't no fragile leprechaun,
So grab Holt and hang on.

IN MEMORIAM

Mr. William Russell O'Neal, well-known Rollins leader and Orlando pioneer, died January 23, in Orlando. For fifty-seven years, Mr. O'Neal was a guiding influence in the development of the College, first associating with the College in 1888, and serving continuously as a trustee since 1890. In recent years he served as secretary of the board of trustees and as chairman of the board's finance committee. He is said to have served as a trustee of Rollins longer than any trustee of any other college in the country.

It was a fond recollection of Mr. O'Neal that he signed the diploma of every student to graduate from the College since its inception.

Rollins conferred upon Mr. O'Neal in 1927 the honorary degree of doctor of laws and in 1937 the Rollins Decoration of Honor.

He is survived by one daughter, Miss Mabelle O'Neal, Rollins alumna.

FOOTBALL FUTURE

FRANK BOWES '43

The Rollins Tars will again be writing football history this fall, after a four year recess. A schedule of seven or eight games is contemplated by summer, although at this writing there seems to be a holding penalty against finding opposition due to a late go-ahead signal for intercollegiate competition. However, at present, games have been worked out with Stetson, Chattanooga University, Ohio Wesleyan University, and George Washington University of Washington, D. C. In the meantime plans are being laid for a very attractive 1947 football schedule, including Rollins' old rival of long standing, the University of Miami.

Coach Jack McDowall, the mentor of Rollins teams, will again be head coach, ably assisted by Line Coach Alex Waite. "Jumping" Joe Justice, 1940 grad and one of the Tars great grid stars, will also be on the coaching staff.

At least half of the 1942 squad is expected back by September for fall practice. A spring practice will not be held since there are not now enough players enrolled in college to warrant one. By March, though, the following men of the 1942 squad will be on hand: Ronnie Green, Dave Frazer, Oliver Barker, Pershing, Scott, and Don Hansen. In addition Bud Bryson and Tim Tyler are returning from the 1941 team. By fall many more players are expected to be on hand, including: Calvin Peacock, Orville Thomas, Reedy Talton, Ralph Chisholm, Jerry Griffin, Fred Mandt, Gene Chizik, Dave "Happy" Clark, Gus Kolouris, Trammell Whittle, and several others. It is hoped that these will be reinforced with new men entering college.

With the above named players on the squad for this coming fall, Rollins will again be in the heat of the fight. But the coaching staff feels that by 1947, with a year of strong opposition behind them, the Tars can really swing into high gear.

THE ATOMIC BOMB AND WORLD GOVERNMENT CONFERENCE

Rollins college was host the week of March 11, 1946 to one of the most distinguished groups of scientists, educators and leaders of religion, business and labor ever to convene in central Florida. Members of the Conference on World Government, they assembled on the invitation of Dr. Hamilton Holt for the purpose of determining ways and means of establishing an over-all form of government acceptable to all the peoples of the world and adequate to the control of the atomic bomb and other super weapons.

The conference was made possible through the foresight and generosity of Rollins' great friend, R. T. Miller, Jr., of Winter Park. Mr. Miller was inspired to this action by a talk made by Hamilton Holt on the United Nations conference in San Francisco which he attended, in which he advocated expansion of the Charter to permit a confederation of nations comparable to the federation of the United States of America.

Conclusions and recommendations of the conference were set forth in a 7-point manifesto called "An Appeal to the Peoples of the World".

Participating were Dr. S. K. Allison of the University of Chicago; Charles G. Bolte, of the American Veterans Committee, Inc.; James Carey, of the

CIO; Rev. E. A. Conway, S. J., of the Catholic Association for International Peace; Supreme Court Justice William O. Douglas; Brooks Emeny, president of Council on World Affairs; Robert M. Gaylord, president Ingersoll Milling Machine Co.; W. Trevor Holliday, president Standard Oil of Ohio; Congressmen Charles La Follette of Indiana and Jerry Voorhis of California; Dr. Louis L. Mann, Rabbi Chicago Sinai Congregation; Cord Meyer, Jr., of Cambridge, Mass.; Dr. I. I. Rabi of Columbia University; Emery Reves, author of the "Anatomy of Peace"; Dr. Preston Slosson of the University of Michigan, who acted as secretary of the conference; Dr. Henry De Wolf Smyth of Princeton University; Raymond Swing, news analyst; Senator Charles W. Tobey of New Hampshire; Dr. Harold C. Urey of the University of Chicago; Carl Van Doren of New York and Dr. Alexander Meiklejohn, Unesco delegate.

George C. Holt was executive director of the conference and secretary ex-officio of the Executive Committee.

STUDENT PARTICIPATION

Eleven college students, members of the Rollins College Class in World Government, presented their own views and opinions on the problem of the atomic bomb and the setting up of an international organization for its control Monday to the delegates of the World Government Conference. The report, a 22-page, carefully documented analysis is entitled *The Atom Bomb and World Government*.

Predicated on the possibility of eventual peace and prosperity, through adequate control of atomic power, the student report advocates the placing of such controls in the hands of a General Assembly, a representative body chosen from within the UNO with full powers to enact and enforce the laws necessary for world peace. "We have come to the conclusion," say the student writers, "that a world in peace must be a world in unity; that is to say, a federated world."

The writers envisage a tightly-knit organization of states which would relinquish much of their sovereignty to the federation; and the setting up of an International Bill of Rights to protect the world citizen. Such a "Worldman", the report claims, would have newer and far greater responsibilities if he is to protect and insure his freedom of religion, worship, speech, property, education, and work, as well as that of his fellow man.

To this end, the writers advocate economic as well as military laws, insuring full employment, capacity production, and equal distribution of material wealth on a world-wide scale. Enactment of the Bretton Woods proposals, strengthening of the International Trade and Labor Organizations, establishment of a world Food and Agricultural council, and a Health and Education Advisory Board, are all urged by the student writers as essential factors in the proper functioning of their proposed scheme. They also call for strong U. S. leadership and the establishment of a durable, positive economic system of our own within the framework of the world organization, since this country represents not only the democratic ideal but the necessary prop upon which devastated nations rely.—SANDSPUR, March 14, 1946.

PRO AND CON

The recent Saturday Evening Post article on tennis at Rollins was received here on campus with mixed feelings (mostly hot) and created a short-lived tempest on the tennis court. The alumni reaction was most gratifying; the CONS being way out front.

We are happy to publish herewith a few excerpts from some of the letters (hot, cold and lukewarm) on the subject: (anonymity is maintained since there is not time to obtain each writer's permission to print.)

"My first and lasting impression was one of anger and incredulity. This morning my phone brought messages from other . . . alumni. Their reactions were uniformly bad. The same sense of responsibility as head of the . . . Alumni which prompted me to step into the TIME fracas, also compels me to register my distaste for this POST article. In my opinion it sets us back ten years in the fight to rid Rollins of the country club stigma . . ."

"I am . . . proud of my Rollins education . . . and it has served me well. But the Rollins I knew and loved is not the Rollins that TIME, the DAILY NEWS, and the SATURDAY EVENING POST write about . . . I am confident that the college need not rely on the bizarre for its place among the finest educational institutions in this country."

" . . . It seems to me that the college publicity has fallen into the old 'country club' pattern . . . something which we have been fighting for a long time. . . . We love the college too much to see and read such flippant accounts . . ."

"Nice to read Post's story of our fine college."

"I understand that great things are happening at the college, and I was very interested in the article in the Saturday Evening Post . . ."

"I have just finished reading . . . the article . . . by Collie Small. And again, I wish to extend to you my congratulations on Rollins reaching the national spotlight. The article itself is a breezy and interest-holding piece This article, I believe, answers the skeptics who believe Rollins is a 'tennis country club'. Therefore, I am especially pleased with the story of Rollins and its tennis stars making a national magazine."

" It is unfortunate that such an article and series of pictures should be presented in such a way as to give only one side of the story"

" . . . I have just finished the article . . . I *did not* like it . . . makes it sound like a school for games only. Dr. Holt has done a wonderful job and I am for his methods heart and soul."

" . . . Some rather strong phrases which I think unjust, but frequently they were coupled with explanatory phrases of worth."

CLASS NOTES

Gay Nineties

Secretary: Henry B. Mowbray, 442 Chase Avenue, Winter Park, Florida.

Greetings came from "three of the old girls," Caroline Hills Abbott, Belle Abbott Roxby, and Evelyn Haynes, '22, from Huckleberry Mountain Artists Colony and Workshop-Camp, Hendersonville, N. C., where Evelyn is Director.

Marian Curtis Robinson wrote us and enclosed a picture of her five small grandchildren. She says her grand-daughter, Barbara Cheney, graduated from Rollins two years ago, so they are keeping up with the tradition. (Her husband, Capt. B. M. Robinson was one of the first recipients of the Algernon Sydney Sullivan award.)

Mrs. B. M. Robinson and her five grandchildren, Robin and Jeffrey Fawsett, Terry Barr, and Evie and Beverly Jones.

Prof. Hamilton Johnson, Baton Rouge, La., accepted the invitation to represent Rollins at the inauguration of the new president of Centenary College in January.

A letter from Mamie Blue Kelly expressed her regret at not being able to attend Founders' Week this year. She sent a snapshot of her two charming grandchildren.

We wish to express our most sincere sympathy on the death of Marcus M. Alexander on November 29, 1945. Mr. Alexander attended the college from 1886 to 1890.

(Ed. Note): "Old grads" were in fine fettle at the Gay Nineties tea given by genial host "Hank" Mowbray on Alumni Day. Some thirty alumni gathered to exchange greetings and news and sip tea poured by Katherine Lewis Lehman '27, former alumni secretary. Gay Ninety members present were Louise Meriwether Bachellor, Winifred Wood Estey, Anne Bennett Ensminger, Mr. and Mrs. Waters Howe, Hattie and Florence Hudson, Elizabeth Meriwether, Mrs. John Neville, Mabelle O'Neal, Marian Curtis Robinson, Mary Leffler Strong, Annie Guffin Ward, Clara Layton Ward, Maud Neff Whitman, Elizabeth Rand, Stella Waterhouse, Mabel J. Class of 1908

Secretary: Leon B. Fort, 715 Woodlawn Blvd., Orlando, Florida.

J. Henry Buttram is now living in Fort Lauderdale, Florida. He says, "I am located here practicing law, and playing in the Florida sand. I have a son in the U.S. Navy, a daughter teaching in Miami, and another holding a position at Wheaton College in Wheaton, Ill. The Mrs. and I are enjoying our second honeymoon."

Margaret Burleigh Vaughn has been doing the same old housework with a lot of nursing on the side. She says, "I am practically a practical nurse from practicing on my husband and his sister. In the last two years he has wrenched both knees (one at a time) sprained an ankle and broken his right arm." His sister has also been very ill. "It's fine for the figure, girls!" says Margaret. "I weigh just what I did in college."

Here is a report from Eunice Baldwin McIntosh (Mrs. J. W.): "We have eight children, five sons and daughters-in-love (commonly called "in-law") and 11 grandchildren. . . . We were all together for dinner and an evening of fun and fellowship a week ago and all 26 had a glorious time. I am Orange Co. Jail Mother, Sunday School Teacher, C. S. O. Worker, Bible Teacher, Church Organist, and manage to

keep out of mischief most of the time." Eunice is living in Santa Ana, California.

Class of 1910

Secretary: Marguerite Doggett, 119-20 Union Turnpike, Kew Gardens, Long Island, New York.

Winifred Wood Estey reports that her daughter, Mary, was married last July and is now Mrs. George Kennedy. They are living in Tangerine in their own home. George is employed with the National Research Co. in Plymouth. Winifred is Regent of the Ocklawaha Chapter of the D. A. R. having been elected last May.

Charles C. Lacey is planning to return to Sarasota, Florida, to enter the real estate field. He has three sons, six, eight and ten years of age. The eldest son, Phillip, is a talented singer.

Class of 1911

Secretary: Mary L. Branham, 126 Lucerne Circle, Orlando, Florida.

Frances Burleigh Fernald tells us, "I was in Florida two months this winter but in Miami most of the time welcoming a new grandson. Now have two grandsons and three granddaughters, very lively and most adorable. The oldest is just four. Hope some day to get them all together. My daughter's husband will get his release from the Navy April first, my son expects his from the Army in May, and my second

daughter hopes to be out of the Marines by March first. I have a doctor son completing his first year as an interne at Roosevelt Hospital in New York. Oldest son and three children living on our third floor keeps us from going stale."

We had a very interesting letter from Dr. Dwight J. Bradley in which he tells us, "... My last book, published by MacMillan, one year ago, entitled 'Your Problem—Can it be Solved,' has had a wide sale. I have represented Rollins College at the inauguration of Dr. Henry Pitney Van Dusen as president of Union Theological Seminary, and will represent Rollins College at the inauguration of Dr. Russell Henry Stafford on February 24 as president of Hartford Theological Seminary Foundation. . . I manage to keep busy. Just now I am rejoicing in the return from the war of my son, my step-son, and two sons-in-law." Dr. Bradley is on the staff of the National Citizens Political Action Committee.

Class of 1912

Secretary: Mr. Edward H. Pearson, 8 Ferncliff Rd., Scarsdale, New York.

Your secretary, whose duties take him to Washington frequently in connection with the advertising of Capital Transit Company caught a glimpse of Dr. Holt on a crowded Washington street one hot day last summer.

Class of 1917

Secretary: Randolph Lake, Forest Lake, Minnesota.

Congratulations to Fred Hanna who was elected president of the Florida Audubon Society at its 46th annual meeting held Saturday, March 2, in the Annie Russell Theatre.

Paul L. Thoren was in Winter Park on January 30. He was called to Florida because of the critical illness of his sister, Irene Thoren Tilden, '18, of Winter Garden. We wish to express to Paul our deepest sympathy on her death.

What kind of a person are you? If you would like to find out, Marguerite Barze can tell you. Or, better yet, figure it out for yourself by reading her article in the February *Ladies Home Journal* on reading character from handwriting styles. Marguerite has compiled a comprehensive test which enables you to analyze your own (or others!) handwriting to determine whether you are constructive, basic, ideal, etc. It is interesting, very well done, and lots of fun.

Class of 1918

Secretary: Anne C. Stone, Winter Park, Fla.

With deep regret we announce the death of two of our classmates, Mrs. Clarence Tilden (Irene Thoren), and Henry D. Fordham. We extend our sincere sympathy to their bereaved families.

Irene Tilden died on January 31, at her home in Winter Garden. Surviving her are her husband, Mr. Clarence Tilden; three daughters (all Rollins alumnae) Mrs. Gurney Irene Grafton of Miami, Mrs. Wilma Mae Lasseter and Mrs. Mary Lucille Farnsworth of Winter Garden; five grandchildren; and two brothers, Mr. Paul L. Thoren and Mr. R. M. Thoren of Chicago. Dean of Men at Rollins, Dr. A. D. Enyart, who was a close friend of Irene and Clarence Tilden during their college days assisted with the funeral services, which were held at the Winter Garden Methodist Church.

Henry D. Fordham died of a heart attack on Christmas day, in the Orlando General Hospital, where he had been admitted because of pneumonia. Henry had been a loyal alumnus, acting for several years as a member of the Rollins Alumni Council, and as an adviser of the Rollins Chapter of the Kappa Alpha Fraternity, of which he was a member. He is survived by his wife, Gayle Davis Fordham, a Rollins alumna; by his sister, Mrs. Herrick of Rahway, N. J.; and by his mother.

Christmas never fails to bring a greeting from Bob and Marjorie Tallman Hutchinson, of Hollywood, California. We hope that they will not long postpone their next trip East.

Mrs. Kenneth Fuessle (Elizabeth Russell) has received the Master of Science Degree at the N. Y. School for Social Work, and is now teaching Social Case Work at that institution. Congratulations, "Sunshine"! Elizabeth also continues with her work in the N. Y. Department of Welfare and is Case Supervisor in Welfare Center 67, in the Flatbush Area of Brooklyn, where she is responsible for the work of more than 100 Social Investigators and Assistant Supervisors. Now that Kenneth has been released from his position as Military Officer for the Red Cross, at Newport News, perhaps they will plan a visit to Rollins. An added inducement is the fact that Mrs. D. L. Byrd (Lelia Russell) and her parents are now living at Coral Gables.

Sara Yancey Belknap, who is librarian in one of the New York City High Schools, has an interesting position with the Museum of Modern Art in the Ballet Archives. We extend to Sadie Sawyer Pellerin, our sincere sympathy on the recent death of her father, at their home in Jacksonville.

Your secretary had the pleasure in January, of attending a Florida State Spanish Teachers' Convention at F.S.C.W. in Tallahassee. Much to my delight, Mrs. Esther B. Ferguson found an idle moment, in which to invite me to have a cup of tea, in her apartments in Gilchrist Hall, where she mothers 300 girls, with the same ease and good humor which she displayed when Dean of Women at Rollins. I hope to see Sara Muriel at the F.E.A. Convention in Tampa next month, and to at least have a newsy telephone conversation with Mrs. J. L. Boynton (Kathryn G. Waldron), who makes her home there. How about a word from you, Jimmie Noxon?

Class of 1920

Secretary: T. DeWitt Taylor, c/o High School, Pierson, Florida.

A card from Byrum Shockley tells us that he is still a bachelor, was recently 50, and is an uncle for the first time. He is in the best of health and looking more like 40 than 50. He specializes in gift pack baskets and is classed as an expert on citrus varieties and fair display work. He has an interesting hobby of experimenting along lines designed to produce healthier citrus trees by "interplanting with legume trees whose nodules store the vital, volatile and highly expensive nitrogen that has been a continuously hard to harness element in the production of citrus."

Class of 1921

We are printing the following not only for its news value, but also as an object lesson for all alumni who don't drop us a hint when they get married. We received this letter from Marguerite Harris Garrard who says, "I certainly seem to have a hard time convincing my various alma maters that I am a married woman! For the record, I am Mrs. William Garrard . . . and all I've been doing for some time is commute to New York where my husband was for over a year with the overseas office of the Office of War Information. That work having ended January first, he is now here, doing some writing and soon to resume his former job doing publicity and advertising for Endless Caverns, New Market, Virginia. . . I was delighted to have newsy letters this Christmas from Pat Foley Dickinson in New York and Charlotte Swain Smith in Sarasota. (Ed. Note) The following is a letter written to us by Burleigh Drummond from Bari, Italy in January.

"It has been so long since I have seen an Alumni Record that I have no idea as to whom this should be addressed. At the time I left the land of central heat and private baths there was a certain amount of confusion surrounding the editorship which involved changes in the legal status of various members of the staff. I trust these matters were ironed out to everyone's satisfaction in time for the holiday season.

I removed to these parts about a month and a half ago after a tour of about five

months at Florence (Italy) in case you can't remember her. I understand that some joker thinks he had quite an educational hoop-te-do hatched up out on Saipan. This babbling gives quite a chuckle to old sages like myself who have become steeped in the ancient culture of Florence. I went there with the University Training Command which really was one of the most interesting ventures education-wise I have ever seen. We took over the marble-hall splendor of Mussolini's old school of aeronautics. And over night set up a university complete with all the appendages, appurtenances and bait that we, at home, consider essential to the fact absorbing process. We handled an average student body of between three and four thousand students and besides reproducing a quite complete college curriculum we were able to throw a few added delicacies at them such as a glee club, swimming pool, saddle horses, football team and co-eds. I taught Merchandising, Business Administration and Salesmanship which I mention only to assure Dean Stone that I stuck to less definitive matters than Philosophy.

But like many other fine institutions we ran out of our stock in trade—students—because for some inexplicable reason a rumor got out to the effect that the war was over in this area. And one crisp November afternoon a bit of paper came to Florence saying, "a/n O is reld PA and WP to Bari, Italy as CO in C, RO III USCS." This gibberish means that the above named officer is relieved of his present assignment and will proceed to Bari, Italy as Claims Officer in Charge of Regional Office III United States Claims Service (APO 782—if anyone has any Christmas packages or cigarettes to merchandise.) Well sir, lemme tell you this Bari is something else again—particularly to one with a sensitive Florentine background. Mussolini built this fiasco as a harbor and staging area for the invasion of Albania, Greece and Yugoslavia. Before the war, Bari had reached a population of over 200,000 but without the artificial stimulation of war needs, the country side looks as though it would support not over a half dozen buzzards. Unfortunately the people are still here although the stimulation is not and I have the definite feeling that the hungry population is mentally measuring my well fed flanks in terms of steaks and chops. For a time a certain quantity of sustenance reached the population through G. I. channels but most of the troops are gone from this area—and all in all things look strictly no good for the future—I can't believe UNRRA is the answer unless we will send enough person-

nel to police the distribution. At the present there remains as an outpost of democracy here ourselves, the claims service and the graves registration group. And believe me, relations with our "co-belligerents" are such that we will be able to handle all the going business.

Well that will have to do for a partial report from Sunny Italy—don't let the V-mail stationery fool you, I know they're not using it any more, but it is all we have and we have bales of it. What the Guinnys don't steal we use for correspondence and gin rummy scores.

If you have any relatives in this area who want to file a claim please encourage them to get it in before the warm weather arrives and Happy New Year.

B.B.D."

We have an adobe house on 60 acres in the Catalina Foothills. On it are a girl and a boy, Bonnie and Donald, five and six, and about seven rattlesnake hounds. Heard from Dick Shattuck awhile ago, and from Benny Tenaile, '39. I'd like to know where Bob Black is."

other post-service educational opportunities. Jack expects to go back into teaching when he gets out of uniform.

Sandy Showalter has settled in Winter Park and has two "deals" on. He has an agency for the Motorette company which produces midget cars that run an incredible distance on a drop of gas. They are proving to be very popular in Winter Park judging from the number I've stumbled over down town. Sandy and brother, Howard, are also opening an airport just east of the old Aloma golf course in Winter Park. They will offer private instruction in flying, as well as provide hangar space for those of us who have planes needing garaging.
